ELECTIVE	ELECTIVE	

**NOTES**

- All courses in other Faculties are acceptable for use as elective credit in the Faculty of Social Science, if regulations of the department offering the courses permit and prerequisites are met.
- ENG 116 must have been taken on or after September 2019 to transfer as ENGL 135 at UVic.
- Although NIC offers a range of Anthropology courses that transfer to UVic as unassigned ANTH credit, we do not offer two of the required Anthropology courses (both in second year). These would need to be completed at UVic once the student transfers. These courses may be pre-requisites for third-year courses.
- Within the first 60 NIC credits completed, no more than 24 credits can be from any single department. Additionally, electives must include at least courses from 2 other departments outside of Anthropology.
